LAND VALUES

Pasture land prices in the region are **14% higher than the average** as land values rose again last year, despite numerous challenges in the local market & global economy. This once again shows the inherent resilience of agricultural land as a tangible asset.

With a wide range of potential uses, agricultural land remains an attractive investment for a diverse range of buyers. This is supported by the fact that, **in the past 5 years, land values have risen by 31%**, outperforming the FTSE 100, UK property prices and interest from savings in the bank.

These rises are driven by historically low levels of land availability, as demand continues to outstrip supply.

ACCESS

The land benefits from 61 metres of road frontage onto Kenley Lane with a field gate located in the north-western corner.
